

OF COMPARISON

DIBAKAR PAL ¹

¹ PHD STUDENT IN INDIA.

ABSTRACT

Research and development is based on comparison. In case of attaining the ideal, trial and error method is the best method. This trial and error method is based on comparison. This methodology offers expertise and enriches with thorough knowledge which is the asset of a scholar.

Keywords: Comparison, Alike, Differ, Similar.

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals, so it bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is the outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that the pleasure of reading can be enjoyed by the common mass. As you know well that, Francis Bacon (1561-1626), the immortal writer, wrote many essays, and notably "Of Love", "Of Friendship", "Of Ambition", "Of Studies", etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation and his unique style kindled imagination and inspired me to write essays, in the light of creative writing, thus to get relief through Catharsis.

ARTICLE

Compare is to examine people or things to see how they are alike and how they are different. It is the methodology to judge one thing and measure it against another thing. It is to show that a particular person or thing is similar to somebody or something else. It is to be compared with or be worthy to be compared with somebody or something.

Also compare is to exchange ideas or opinions.

Thus comparison is used to emphasize the difference between two people or things being compared. It is a tool to measure or judge performance or quality of two persons or things. Through comparison odd thing is identified and out it.

Comparison is the oldest and easiest method. It is widely used in research both in science and humanities discipline. Survey of literature is the base of comparison. Research means to agree or disagree with the existing findings. If agreed then further development is done. When it is disagreed then the actual findings should be reported.

Comparison is good when it is done in positive sense. But it is too bad if it provokes or allures to be envious thus to achieve the fortune that was bestowed upon another person.

I Great men think alike. So there may be two identical themes. Two ideas are identical but different in approach. If great men do not think alike, also there is no problem. Because, many men many minds. Here lies the importance of comparative studies. Through comparison a new thing or idea be shaped taking the best attributes of different thoughts.

Compare and proceed. It is better if the competition is healthy. But unhealthy competition gives birth to envy that makes difference and kills intimacy. A man cannot have all good qualities. For self improvement he must try to acquire the good traits of others. Here he will simply compare periodically and try accordingly for better improvement. He may not reach the target for many reasons. He will try to identify those shortcomings and take appropriate measures accordingly. He should consider self output, achieved from highest labour being his highest capacity that may be lower or higher than the target person. So he should neither suffer from inferiority or superiority complex since both these personality traits are hindrance for full blooming. As such comparison should be taken with sportsman spirit. An emotional heart sometimes commits suicide if fails to be superior or at least be equal with the competitor. In such a case comparison is a risky game. They say, don't commit suicide, because life has its sweet side too.

Childhood is the most precious period of human life. As such children should be allowed to enjoy childhood. Modern parents compel their children to be better and superior than their classmates by any means be they fair or foul. This inhuman activity kills their childhood, moral values and goodness already in them. They become careerist and self-centered. Thus, the innocent souls, in course of time become selfish giant and behave like robot having no emotion but full of motion. They forget their parents. They leave their parents. Parents tried so that

their children be established in future. But their methodology was wrong. For the paradox is that these grown up children when be unsuccessful, in the battle of life, blame their parents, hate them, curse them, forget them and ultimately they love not rather leave them forever. As a result misfortune dogs such deserted parents wherever they go. Also misery follows that issue like shadow.

Comparison if done chronologically it makes history. Evolution is the storehouse of comparison. Such systematic study encourages a scholar for better research work. If he can successfully interpret the previous facts then he can contribute better.

Research and development is based on comparison. In case of attaining the ideal, trial and error method is the best method. This trial and error method is based on comparison. This methodology offers expertise and enriches with thorough knowledge which is the asset of a scholar.

Difference or inequality acts as driving force. This force is the cause of movement of human history. If a man notices the fortune of others, he becomes restless to remove his misfortune. This effort is based on comparison. And the man tries till he be equals with others and sometimes an ambitious person be satisfied after surpassing his rival.

CONCLUSIONS

Comparison if done in a wide horizon then it becomes research. Little reference is plagiarism. But much reference is called research. Comparative literature is based on these references.

ABOUT THE AUTHOR

Pal, Dibakar is a Retired Executive Magistrate in India and PhD Student. Though he is a Civil Servant yet he is genuinely interested in diversified academic fields. As such, he holds master degrees in M.Sc(Math), M.A(English), M.A(Bengali), M.B.A(HRD), M.C.A, P.G.D.M.M(Marketing), L.L.B, D.C.E(Creative Writing), M. Phil (Business Management),UGC- NET(Management)-2008. He attended an International Conference at IIT, Mumbai, India and five International Conferences at U.S.A; though he gets invitation to present papers in many International Conferences at home and abroad round the year. He presents papers on Computer Science, Management, English Literature, Linguistic, Philosophy, Philology, Psychology, Sociology, Humanities and Poems. He presented a paper on Computer Science and Chaired in 2007 IEEE Conference at Richmond, Virginia, U.S.A. Also another paper on Fuzzy Logic was accepted by IEEE Conference 2010 at USA. He serves as Session Chair, Presider and Reviewer. He serves as reviewer of American Marketing Association, Journal of Common Ground; Australia, IEEE Transactions, IJEAPS, AJHC, Journal of Supercomputing.

He has more than one hundred fifty (150) publications and among these one is as Monograph in International Journal on Management Science, one Monograph is in Journal of

the World Universities Forum, one is in Consumer Behaviour, two are in Computer Science, one is in Neuroscience, one is in Linguistic and rests are Creative Writing of English Literature. In Creative Writing two papers have been incorporated in SSRN's Top Ten Download List three times in November, December 2010 and April 2011. In ResearchGate his papers have reached a milestone through more than 9700 reads. Scholars' Press and Lambert Academic Publishing House, Germany have published twelve books between the months July to December, 2016. Now he is pursuing his PhD thesis in Business Management in University of Calcutta, India. Also he is currently focussed on the Extension Works of Huffman Code i.e., Coding Theory and Pattern Recognition through Fuzzy Logic (Pattern Recognition, Image Processing, etc) of Computer Science.

His hobby is Creative Writing (Nonfiction). He says:

Creative writing is based more on manifestation rather than on expression. It does not inform rather it reveals, so it bears no reference. The best creative writing is critical, and the best critical writing is creative. As you know well that, Francis Bacon (1561-1626), the immortal writer, wrote many essays, and notably "Of Love", "Of Friendship", "Of Ambition", "Of Studies", etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation and his unique style kindled imagination and inspired me to write essays, in the light of creative writing, thus to get relief through Catharsis.
