

OF EXCEPTION

DIBAKAR PAL ¹

¹ RETIRED EXECUTIVE MAGISTRATE (CIVIL SERVANT) & PHD STUDENT, DEPARTMENT OF BUSINESS MANAGEMENT, UNIVERSITY OF CALCUTTA, INDIA.

ABSTRACT:

Some husbands love all women except their respective personal wives. To such a husband all women are beautiful except his wife. Such husbands become intimate with other men's wives in the night club. All the husbands of such an aristocrat club can exchange their wives with or without their consent. It seems they are either made for each other or mad for each other or both simultaneously. This is the outcome and etiquette of patriarchal society. Thus polygyny invites polyandry except monogamy the only single avenue for healthy society.

KEYWORDS:

EXCEPT, LEAVE OUT, TAKE OUT, EXCLUDE, OMIT, OBJECT, OTHER THAN, BUT.

INTRODUCTION

Creative writing is based more on manifestation rather than on expression. It does not inform rather reveals, so this style of writing bears no reference. The best creative writing is critical, and the best critical writing is creative. The present article is an outcome of creative writing meant for lay readers. As such free style is the methodology adopted so that pleasure of reading can be enjoyed by the readers in general. As you may know Francis Bacon (1561-1626), the immortal essayist, wrote many essays and notably, "Of Love", "Of Friendship", "Of Ambition", "Of Studies", etc. The myriad-minded genius rightly pointed out that all the words of the dictionary can be the themes of essays one can write. But little has been done, in this regard since his death, in order to finish his unfinished monumental works. In fact Bacon's way of presentation i.e., his unique style kindled the imagination already in me and encouraged me as well to write essays, in the light of creative writing, thus to get relief through Catharsis.

ARTICLE

Except is to leave out or take out. It is to exclude. It is to omit. It is rare to take exception. It is to object. It is leaving out. It is other than. It is but e.g. to everyone except me. It is to make an exception of. It is with to or against e.g. to except to a remark. It is, colloquially, were it not that.

Except is to exclude thing from enumeration, statement, etc. e.g. present company excepted. It is not including, but e.g. we all failed except him; he is everywhere except in the right place; never to be found except in the wrong place; it is right except that the accents are omitted; except for the omission of accents; the entire household not excepting

the servants.

Except is to exclude from a general statement, condition, etc. e.g. excepted him from the general amnesty. It is other than e.g. all failed except him; all here except for Jack; is all right except that it is too long; an exceptionally beautiful child.

As per archaic, it is unless e.g. except he be born again.

Exception though rare yet it appears with its various form and features with its diversified degrees and dimensions. Man experiences it with amazing eyes and sense as well.

For example: I would quit except I need the money. I like the group, that fellow excepted. All the absentees, nobody excepted, were fined. Everybody except you arrived in time. The doctor is available daily except Mondays. These shrubs grow nowhere except in the tropical regions. He is the exception that/which proves the rule. It is a fine work except for the faulty index. I know nothing about him except that he is a teacher. Except he be acquitted. I have read all his poems with the exception of those published after his death. There are quite a few exceptions to that. He took strong exception to what you said. He is a man of exceptionable caliber. The boy can solve difficult sums of calculus and it is quite exceptional for a boy of ten. Thus the boy is exceptionally strong in mathematics.

Exception is an excepting or being excepted. It is exclusion. It is anything that is excepted.

Specifically, it is a case to which a rule, principle, etc. does not apply. Also it is a person or thing different from others of the same class.

It is an objection.

Take exception is to make an objection. It is demur. It is to take offense. It is to resent. It is to reel offended.

With the exception of is except.

Exceptionable is liable or open to exception. It is open to objection. It is objectionable.

Exceptional is being an exception. It is not ordinary or average. It means very unusual. It implies outstanding e.g. show exceptional musical ability. For example: This weather is exceptional for December. I could only condone violence in exceptional circumstances.

Exceptional is constituting, or occurring as, an exception. It is not ordinary or average. It is especially, much above average in quality, ability, etc. e.g. exceptional talents. It is needing special attention or presenting a special problem, as in education, because mentally gifted or, especially, because mentally, physically, or emotionally handicapped.

Exceptive is of, containing, or forming an exception. It is inclined to take exception. It is captious.

The exception proves the rule is a saying. The fact that some cases do not follow a rule proves that the rule exists, or that it applies to all other cases. For example: All his family have red hair except him.

Except, excepting, but, save are synonymous and point out something excluded from a general statement.

Except emphasizes the exclusion. For example: Take any number except six.

But merely states the exclusion. For example: We ate all but one.

Save is now mainly found in poetic use e.g. nothing in sight save sky and sea.

Except for somebody/something or except that means not including somebody/something. It is but not somebody/something.

For example: The restaurant is open every day except Wednesday. We will invite everyone, except perhaps John. I understand everything except why he killed her. He could answer all the questions except for the last one. The room was empty except for an old piano in the corner. She remembered nothing about him except that his hair was black. The two books are the same except, for the fact, that this one has an answer key at the back.

Except somebody/something from something, often with a negative, is to exclude somebody /something.

For example: Children under five are excepted from the survey. The whole staff, not excepting the art teacher, had to take part in the pantomime. Spain excepted, the most popular European holiday destination is Greece.

Exception is a person or thing that is not included.

For example: Most of the buildings in this town are rather unattractive, but this church is a notable exception. The children did well, the only exception being Jack, who failed. Freedom of choice is at the heart of all our policies, and transport is no exception.

It is the action of excluding somebody/something or the state of being excluded.

For example: All students without exception must take the English examination. I enjoyed all his novels with the

exception of i.e. except/not including his last.

It is a thing that does not follow a rule e.g. an exception to a rule of grammar.

For example: Such community spirit is unfortunately the exception rather than the rule. i.e. not usual. Children are not normally allowed in, but in your case I am prepared to make an exception i.e. to allow you in.

The exception proves the rule is a saying. The fact that some cases do not follow a rule proves that the rule exists, or that it applies to all other cases.

Take exception to something is to object strongly to something. It is to be offended by something.

For example: He took great exception to what I said. She took exception to having to wait outside in the corridor.

Exceptionable is that somebody may object to. It is likely to cause offence. For example: There are no exceptionable scenes in the play.

Exceptis excipiendis is excepting what is to be excepted. It is with proper exceptions.

Uncommon, singular are synonyms of exception. Average is the antonym

Due to climate change weather becomes exceptional and behaves exceptionally. Winter is not so cold. In summer season the heat is exceptionally scorching.

Exception may be either too good or too bad. It does not deal with mean value or average of statistics. It is extreme in nature. Since extreme is quite uncommon, common people can hardly think of it. As such exception appears to them with profound amazing colours.

Every action has its cause. He who knows the cause seldom be astonished. He who does not know the reason responsible for any event becomes surprised. As such exception is a yardstick to gauge the intellect of any concerned person.

Any theory cannot encompass all and everything. It cannot explain all events. It has limitation. Exception exists beyond boundary. Knowledge is the store house of infinite exceptions.

Exception is both amusing and surprising. Also it perplexes a person. It amuses with its peculiarity. It surprises with its abnormality since it is unusual or beyond knowledge. It exists far from both normal and abnormal. It does not dwell between the threshold of normal and abnormal i.e., mean value.

Exception may suffer from biasedness or partiality. It is used as a tool to realize personal gain. Thus it does suffer from nepotism. A selfish person is always busy to include all his near and dear ones excepting others. He is a worshipper of perfect nepotism. Someone prefers quality. Someone prefers quantity. He belongs to the second category. He compromises with quality. He offers employment and engages dull-headed persons instead of huge bribe. Thus the establishments become infested with callous and cunning persons and naturally get collapsed.

He is not a patriot at all. He hankers after self-interest only. In such a way he sells his own country even. He is an opportunist. As such essence of exception becomes negative.

They say Indian administration is fully British administration minus discipline and efficiency plus corruption and callousness. It seems, as the British went away they took both discipline and efficiency with them leaving behind corruption instead and callousness is our own achievement. As such they say British rule was far better than the present situation.

Some husbands love all women except their respective personal wives. To such a husband all women are beautiful except his wife. Such husbands become intimate with other men's wives in the night club. All the husbands exchange their wives with or without their consent. It seems they are either made for each other or mad for each other or both simultaneously. This is the outcome and etiquette of patriarchal society. Thus polygyny invites polyandry except monogamy the only single avenue for healthy society.

Exclusion may either be bonafide or malafide in nature. Sometimes it favours. Sometimes it favours not. In air crash all dies except the passenger who either was excluded from the boarding panel or missed to avail it. As such it is quite the game of fate.

Both genius and dull are the striking examples of exception. The former is positive and the latter one is negative in nature. Exception does not deal with natural events or what is quite common. It does not obey any rule; rather it breaks all barriers and crosses all boundaries with its immense power.

CONCLUSION

A good student does not write different thing. He writes differently. That's why he is exceptional. Here lies the uniqueness of exception.
